

Newport Public Schools

Distance Learning – Friday, January 7, 2022

The school day and class will begin at the usual time for each school level, with each teacher limiting the amount of screen time per the specific grade level guidelines. Classes will be held via Google Meet and posted on each teacher's Google Classroom. Teachers will be taking attendance at the beginning of each class.

Below are the suggested screen time guidelines for our schools. We hope this guide will help you as your child participates in Distance Learning. (DL)

- Elementary School: Approximately 40-50% of instructional time consistent with in-person learning.
- Middle School: Approximately 50-60% of instructional time consistent with in-person learning.
- High School: Approximately 60-70% of instructional time consistent with in-person learning.
