

# Classroom Expectations

## Mr. Goodburn

All students are expected to contribute to an environment that promotes learning and respect for others. Some general guidelines to follow include (but are not limited to):

- Be prepared to participate in class with anything that may be needed on any given day (book, pencil, notebook, calculator, etc...).
- Focus on the lesson and do not distract the focus of others.
- Refrain from the inappropriate use of personal electronic devices.
- Save food and drink for consumption in a more appropriate place.
- Take an active role in your education by asking questions. Offer to help explain difficult concepts to others.
- Treat other students the way you would want to be treated. Refrain from making derogatory remarks toward others.
- Observe all applicable school wide policies.
