Student Transportation – Student

Transportation In Private Vehicles Page 1 of 1

A staff member may transport a student or group of students in his own car for school-related purposes only if he has standing authorization to do so or with special permission covering the specific trip.

School administrators, school nurses, and other pupil-service staff personnel designated by the Superintendent are granted standing authorization by the School Committee.

Other professional staff members such as coaches, music teachers, and activity sponsors may, in exceptional cases, be granted special permission by the school principal for providing such transportation.
